

# **Healthy Kids Connecticut**

## **Goals & Objectives**

- **Provide affordable and accessible health care to the 71,000 children in Connecticut that currently do not have it**
- **Cut waste in system and use it to increase available money for the health care system**
- **Find better ways to deliver health care to children - making it more accessible and easier to enroll**
- **Identify the barriers to enrollment and treatment**
- **Realize that increased utilization will lead to increased costs for the state**
- **Preventative care is more cost effective in the long run - how do we increase utilization of preventative care?**
